

(IMMEDIATE RELEASE: March 9, 2009)

Future Health is a Finalist to Prometheus Technology Award

(Iowa) [Future Health, Inc.](#) a provider of [integrated electronic health record](#) and clinic management software solutions was nominated as one of three finalists in the category of Software Company of the Year for the prestigious Prometheus Awards on March 3rd.

The Prometheus Awards, created by the state Technology Association, in conjunction with LWBJ Financial, are prestigious information technology awards created to celebrate and help promote excellence within the high-tech industry.

“This nomination is a direct reflection of the commitment and dedication we have strived to achieve over the past several years,” says [Dr. Steven Kraus](#), CEO of Future Health, Inc. “It is an honor to be recognized for contributing to the betterment of today’s global health care challenges by utilizing technology.”

The keynote speaker for the ceremony was Walter Puschner, Microsoft Corporation vice president of worldwide field information technology who runs Microsoft’s internal IT for 80,000 employees.
